## **Dreams Carports Install Policy**

Dreams Carports installation service is free of charge.

All installation services are at the homeowner's risk. Any damages to the property, driveway, yard, ETC,. will be at the homeowner's, or property owner's responsibility.

When driveway or private road are not safe to enter, crews will park on the side of the road, and carry all material to it's designated spot. If crew carries material more than 100' an additional fee will accrue at owners expense. This fee must be paid before crew begins work.

### **Inclement Weather Policy:**

In the event of severe weather our crews tend to run behind or are forced to shut down. In this case installation will continue the following day if weather permits. If we are unable to install due to weather, (muddy grounds, too much snow, or high winds,) we will have to reschedule for a different week.

**There will be no compensation, if we do not install due to weather.**

We are aware of the lead time that you have waited for installation on the carport/garage, and we will try everything that is in our power to get the building out to you in a timely manner.

### **Existing Buildings**

Dreams Carports will not be held responsible or accept liability for any existing buildings on customers property. Unless manufactured by Dreams Carports I, Inc. Any repairs needed for existing building, customer is responsible to inform Dreams Carports office.

By signing this documentation you are assuring you have read through it completely and accept all information given. You are granting permission for Dreams Carports Crew's to access property.
